(Ages 1.5 to 3 years)

Kindermusik Our Time is a music curriculum for children ages 1.5 through 3. Weekly lessons provide opportunities for:

- Singing and vocal development
- Active listening
- Instrumental play and exploration
- Creative movement, and development of imagination
- Exploring musical concepts
- Reinforcing traditional preschool concepts
- Interactive story time

Kindermusik programs provide the richest possible learning environment in the classroom, and encourage home involvement as well. It is accredited by the National Association for the Education of Young Children (NAEYC), and is taught only by trained and licensed Kindermusik educators. Kindermusik employs professionals in the top of their fields to create the curriculum and music.

Research in music education is telling us that the preschool years are a critical time. We have also learned that the combination of music, movement, and multi-sensory activities create the richest possible environment to promote development in all area of the child: physically; emotionally; socially; cognitively; linguistically; and musically. Rich early learning experiences have the power to shape a lifetime attitude towards music and learning.

Musical experiences clearly can facilitate other areas of development:

- Spatial relations
 - Self esteem and self control
 - Constructive problem solving
 - Language and speech development
 - Motor skills and coordination
 - Listening, perception, and discrimination
 - Classification and sequencing
 - Creative, flexible thinking
-and so much more!

As a Kindermusik educator, I am proud to offer this class.
With the combination of rich, developmental activities and the joy of music
Your child will engage in a
CELEBRATION OF CHILDHOOD
that will help him/her develop a love of music, learning, and self.
